

SmartBudget

Product Information Brochure

Queensland
Country Bank

Effective from 24 April 2024

Features and benefits

Ease bill shock

Spread out the payment of your bills and expenses over a 12 month agreement period in regular known deposits – great for people on a fixed income as it takes away all the uncertainty and surprises.

Save money by paying bills on time

The SmartBudget account will help you to pay your bills and expenses by their due dates and allow you to take advantage of any discounts for paying bills on time (e.g. rates).

Automatic and manual payment options

Choose from direct debit, automatic transfer and manual payment options. Our friendly staff will help you determine the best option.

Flexibility for variable bills

There's a 10% contingency added to your nominated payment amount for those bills that vary, to ensure you have budgeted for those little increases.

No overdrawn account fees

We won't charge you fees or interest if your account becomes overdrawn.*

**Limits and restrictions apply, please refer to the SmartBudget Terms and Conditions brochure for further information.*

Budget better

Set up your required deposits on the same schedule as your pay so you know exactly how much money you have left to spend (or save).

Multiple ways to manage your bills

Pay and manage your bills and expenses quickly and easily online, via the mobile app or in branch.

May help you save money

If you find you have over budgeted for your bills and expenses for the year, you will receive the extra money back at the end of your Agreement!

Payment reminders and bill alerts

Receive reminders and alerts when bills are coming due – to help you never miss a due date again.

Keep your budget on track

You can only spend the money in your SmartBudget account on the bills and expenses nominated in your Agreement, helping to keep your budget on track.

Low cost

There's a monthly account service fee and no set-up or establishment fees.

For full Terms and Conditions on Queensland Country's SmartBudget product, please refer to the SmartBudget Terms and Conditions brochure.

What is SmartBudget?

SmartBudget is a transaction account that you agree, under a SmartBudget Agreement entered into with Queensland Country, to make regular deposits into. In return, you nominate certain bills and expenses to be paid over a 12 month period.

Provided you continue to make your agreed regular deposits to your SmartBudget account, Queensland Country (via our SmartBudget system) facilitates the payment of your nominated bills and expenses as they become due on your SmartBudget Agreement. Once you reach the end of your Agreement period, you may renew your Agreement and continue managing your bills and expenses the smart way.

With SmartBudget you can plan out your bills and expenses for the coming year and smooth out the payments into one regular deposit amount that can be scheduled with your pay cycle.

It helps take the stress out of managing the payment of your bills and expenses as our SmartBudget system calculates how much money you need to put aside in your SmartBudget account each pay cycle and then locks the money away to ensure these get paid when needed. There is also a helpful 'Rainy Day' feature, which can be great when you need a little bit more for those bills or expenses that you may have underestimated.

With our online portal accessible through internet banking and the mobile app, you can view and manage the payment of your bills and expenses. That means no waiting on the phone or in queues to pay bills – although if you do like a genuine and personal service, you're welcome to drop your bills into your local branch and we can pay them for you.

Choose to be notified when nominated bills and expenses are due, plus keep an eye on the ones we've paid for you. We'll also let you know if there are any problems or if you have missed your required deposit.

How it works

At the start of your Agreement, we work with you to nominate your bills and expenses for a 12 month period. We then help you structure the timing of your payments (where possible) and work out the best time to start your Agreement – including how much you need to deposit and when.

Here's an example of a list of bills that people often receive, which you may find helpful in compiling the bills for your SmartBudget Agreement:

- Insurances - home and contents, car, health
- Council rates
- Electricity and gas
- Home phone, mobile and internet
- Regular loan and credit card repayments
- Car registration
- Streaming services
- Health and medical expenses
- Car and home maintenance
- Body corporate fees
- Day care, school, university and other educational costs
- Gym, sporting, health and wellbeing memberships

You estimate an amount for each bill or expense based on your recent experience and this helps to create an agreed budget. All your nominated bills and expenses for the upcoming 12 months, including the monthly account service fee and a 10% contingency for variable bills and bills paid by direct debit, are totalled. This figure is then divided by the number of pays you'll receive over the same period to result in your regular deposit amount.

This deposit is paid weekly, fortnightly or monthly – depending on your pay schedule – into your SmartBudget account. The 10% contingency is added to any of your bills where you have indicated that they vary or if you have opted to pay by direct debit, just in case they are a bit more than usual or increase over time.

As long as you continue to make your required regular deposits by the due date, the bills and expenses allocated on your Agreement will be paid.*

**Bills or expenses where payment would result in a negative SmartBudget account balance ('debit balance') in the first eight weeks of the Agreement period will not be accepted for payment by Queensland Country unless one of the following conditions are met:*

- *You hold a current home loan, investment loan or line of credit with Queensland Country and have satisfactorily maintained the credit facility;*
- *You have previously held a SmartBudget account for a period of 12 months or greater and satisfactorily maintained the account for the last 12 months;*
- *Queensland Country has agreed to allow the account balance to go into debit balance (i.e. overdraw) during this period in order to facilitate the payment of bills or expenses.*

Bills or expenses will not be accepted by Queensland Country for payment where processing of the payment would result in a SmartBudget account debit balance of more than \$5,000 unless otherwise agreed to by Queensland Country.

Here's an example scenario

Mary opens a SmartBudget account and has the following nominated bills on her Agreement:

Bill Type	How Often	Estimated Amount	Contingency	Annual Amount
Telephone	Monthly	\$200	\$20	\$2,640
Rates	Half Yearly	\$1,200	\$120	\$2,640
Electricity	Quarterly	\$1,000	\$100	\$4,400
Car Rego	Yearly	\$700	\$70	\$770
Insurance	Monthly	\$250	\$25	\$3,300
Total Agreement Value				\$13,750

Mary's Total Agreement Value is \$13,750.

She gets paid monthly, so her regular deposit amount is \$1,146.

This is calculated by dividing the Total Agreement Value of \$13,750 per annum by 12 (the number of regular deposits required under the Agreement) and rounding the amount upwards to the nearest dollar.

Mary then sets up a regular deposit to her SmartBudget account for \$1,146, which is scheduled around her monthly pay. All of the nominated bills in the table above will be paid when due, providing she keeps making her regular deposits by the required due date.

What if a bill is more or less than you estimated?

No need to worry. SmartBudget has what we call the 'Rainy Day'.

Even the best budgeters won't be able to exactly predict how much some bills or expenses will be. That's why we ask you to estimate how much your variable bills will be when setting up your Agreement. We then add a 10% contingency to that amount to cover most of the variances you may experience.

Let's look at a typical scenario:

As per the example earlier, Mary thinks her phone bill is about \$200 per month. As telephone bills are often variable bills, we add a 10% contingency and Mary has \$220 available for her monthly phone bill. If Mary is correct with her estimate she receives a bill for \$200, which is paid from her SmartBudget account.

Because \$220 was available for the payment of this bill, the remaining \$20 is calculated in Mary's 'Rainy Day', which she can use towards upcoming nominated bills or expenses that are more than the allocation.

Mary then receives her insurance bill for which she's allocated \$250 per month.

Again, Mary has indicated this is a variable bill, so we have applied a 10% contingency of \$25 to her allocated amount of \$250 per month, meaning Mary has \$275 per month allocated and available to pay her insurance bill. However, the actual total of Mary's bill comes in at \$285 per month, which is \$10 per month more than her allocated amount including the contingency.

When Mary set up her agreement she nominated for the funds to be taken from rainy day when a bill exceeds the allocated amount. This meant that Queensland Country paid the bill for her even though it was more than expected.

Once you try our SmartBudget account,
you will wonder how you ever managed
without it.
